Navigating SAM

PRESENTER

Jaymie Mitchell, CPCM APEX Accelerator of Missouri

Saint Louis, Missouri
P: 314-376-5375 | E: mitchelljl@missouri.edu

*This APEX Accelerator is funded in part through
a cooperative agreement
with the Department of Defense.*

Jaymie Mitchell is a Certified Professional Contract Manager (CPCM), and Procurement Specialist with the APEX Accelerator of Missouri. She has over 35 years of business development, marketing, and procurement experience. She has worked in many different industries:

- Munitions Manufacturing
- Civil Engineering
- Construction
- Environmental Remediation
- Finance
- Information Technology
- Hospitality
- Recreational Ski Areas
- Commercial Fishing

Her experience gives her great insight in the process and expectations of government contracting through the lens of private industry.

How can APEX help you?

- Free and confidential one-on-one counseling
- SAM registration and registering your business in government databases
- Interpreting government solicitations
- Electronic Bid Matching Service
- Government contract research assistance
- Marketing to government and prime contractors
- Identification of contract teaming and joint venture partners
- Vendor website registration assistance
- Help finding bidding partners
- Responding effectively to solicitations
- Contract preparation
- Obtaining federal Set-Aside certifications
- GSA Federal Supply Schedules
- Federal accounting and invoicing practices
- Research strategies for accessing federal, state and local government markets

SAM Navigation and Search Functions

*Why is it so CONFUSING?
Where did everything go?*

SAM.GOV™ Tent and Stage Equipment Rental

The Solicitation Number: #70208123Q000109 issued as a Request for Quotation (RFQ).
This acquisition is issued as a: Total Small Business 100%
The applicable NAICS Code is: # 532310

Where, Federal Acquisition Regulation Clause Language is inconsistent with FAR 13.004, Legal Effect of Quo the language is hereby tailored in accordance with FAR 12.302 to be consistent with a Request for Quotation. This tailoring includes but is not limited to the following: In accordance with FAR 13.004, a quotation is not and any clause provision to the contrary that are hereby modified to be consistent with FAR 13.004. Where "offer/offeror" or a derivative of that word appears, it is changed to "quote/quoter" or a derivative of that word. FAR 52.237-1 -- Site Visit (APR 1984)

Offerors or quoters are urged/expected to do a site visit at the location where the services are to be performed satisfy themselves regarding all general and local conditions that may affect the cost of contract performance to the extent that the information is reasonably obtainable. In no event shall failure to inspect the site constitute grounds for a claim after contract award.

The FOB destination/location for services: USCG Base Elizabeth City

1. 1664 Weeksville Road, Elizabeth City, NC 27909

USCG Base Elizabeth City has a requirement to: Tent and Stage Equipment Rental for Coast Guard Day Event. Period of Performance: 08/02/2023- 08/05/2023

Submit all quotes by the Close of Business on: June 20, 2023 @ 12:00 PM, Eastern Time
To: Brandon Schmidt @ Brandon.m.schmidt@uscg.mil, Cole Smith @ Cole.s.smith@uscg.mil, or Jessica.a.bartlett@uscg.mil

All question regarding this Solicitation shall be submitted in writing to the Contracting Specialist at the email address listed above, no later than June 16, 2023, or your questions may not be answered.

Modification: 06/14/2023

a. Modification to extend offers due date to 06/20/2023 by COB (1200 PM EST.) due to not responding to offer time.

b. Modification to answer questions recieved by offers. Please see questions and answers below

1. Is there going to be a scheduled site visit day or do we schedule that on our own with you? Schedule once awarded.
2. Will any of the tents need any sidewalls, doors, lights, fans, etc.? No
3. Do any of the tents need ground cover/turf protection flooring? No
4. How tall would you like the stage to be? 24"-36" off the ground.
5. Which tents can be staked and which tents must be weighted? Undetermined. (Please see map and judgement) If it's on a road probably need weights, if its on grass probably stakes.
6. What are the dates for install and removal? 2-4 days before and 1-2 days after.
7. Are all the tents to be staked, weighted or a little bit of both? Little of both depending on the area.
8. What are the restrictions for entering the base? Visitor request must be filled out 3 weeks in advance crew members information and submitted to me.
9. Do you also need tables, chairs, and linens? No

Contract Data

- Previous System - Static
 - Still available: REPORTS ONLY

- Now found under Contract Data

Standard Reports

Standard reports contain information about contract activity formatted to meet the needs of both government and public users. There are 36 standard contract data reports in the DataBank.

- ? List of available standard reports
- Reference guide for standard reports
- Go to Standard Reports

Static Reports

Static reports have been prepared on a fiscal year basis for the public and aggregate data across the Federal Government. The following reports are available for download.

- ? List of available static reports
- Reference guide for static reports
- National Interest Action / Other Reports
- Small Business Goaling Reports
- Top 100 Contractors Reports
- Federal Procurement Reports

Ad Hoc Reports

Ad hoc reports are created with an advanced tool that lets you design reports with data fields and filters you choose. We recommend that you become familiar with the contract data fields and have some knowledge of business intelligence tools before working with it.

- Reference guide for ad hoc reports
- Go to Ad Hoc Reports

Do I need a user account?

You must sign up for a user account to access the contract data standard and ad hoc reports. All users including public users can run these reports, but you must be signed in.

- Quick start guide for creating a login.gov account
- Sign up at login.gov

Government users: We encourage you to request a contract data role if you need access to restricted data such as DoD's 90-day award data.

- Request a federal role

Administrative Reports

Administrative reports are accessible only by federal users who are assigned an administrative role for contract data in SAM.gov. These reports contain "For Official Use Only" data or other sensitive information. There are currently 6 administrative contract data reports represented in the DataBank.

NATIONAL SECURITY
INNOVATION NETWORK

NSIN Overview

Our Organization

Office of the Secretary of Defense

MISSION: The Department of Defense's enduring mission is to provide combat-credible military forces needed to deter war and protect the security of our nation.

Defense Innovation Unit (DIU)

MISSION: Strengthen our national security by accelerating the adoption of leading commercial technology throughout the military and growing the national security innovation base.

National Security Innovation Network (NSIN)

MISSION: Build networks of innovators that generate new solutions to national security problems.

NSIN

Mission

We build networks of innovators to generate new solutions to national security problems.

- The Department of Defense's (DoD) current model for problem-solving is expensive and inefficient.
- The complexity of problems the DoD faces and the speed at which solutions are required means new problem solvers are critical.
- Adding intellectual diversity from non-traditional solution providers (e.g. the academic and early-stage venture communities) is necessary to solve problems more economically, faster, and better.
- A networked approach enables the consistent problem-solving capability for the DoD that helps bridge the civil-military divide and improves outcomes for service members.

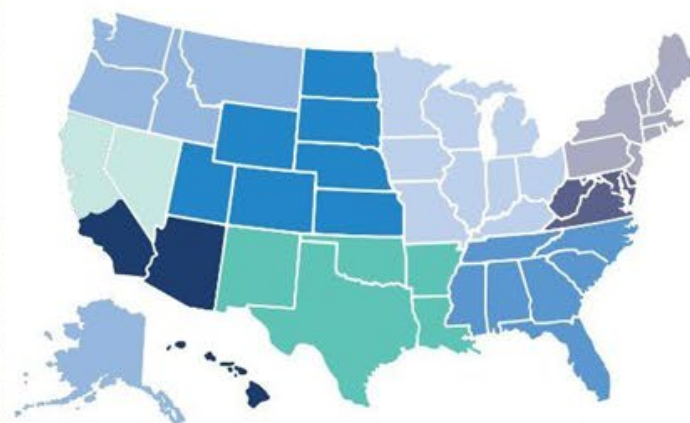

Who

- › DoD program office reporting to the Office of the Secretary of Defense
- › Program of Record FY20
- › All programming provided by NSIN

What

- › Competitive and Diverse Talent
- › Partnerships
 - › Universities
 - › Venture Community
 - › DoD/Warfighters
- › Dual-Use Solutions
- › Expand the National Security Innovation Base

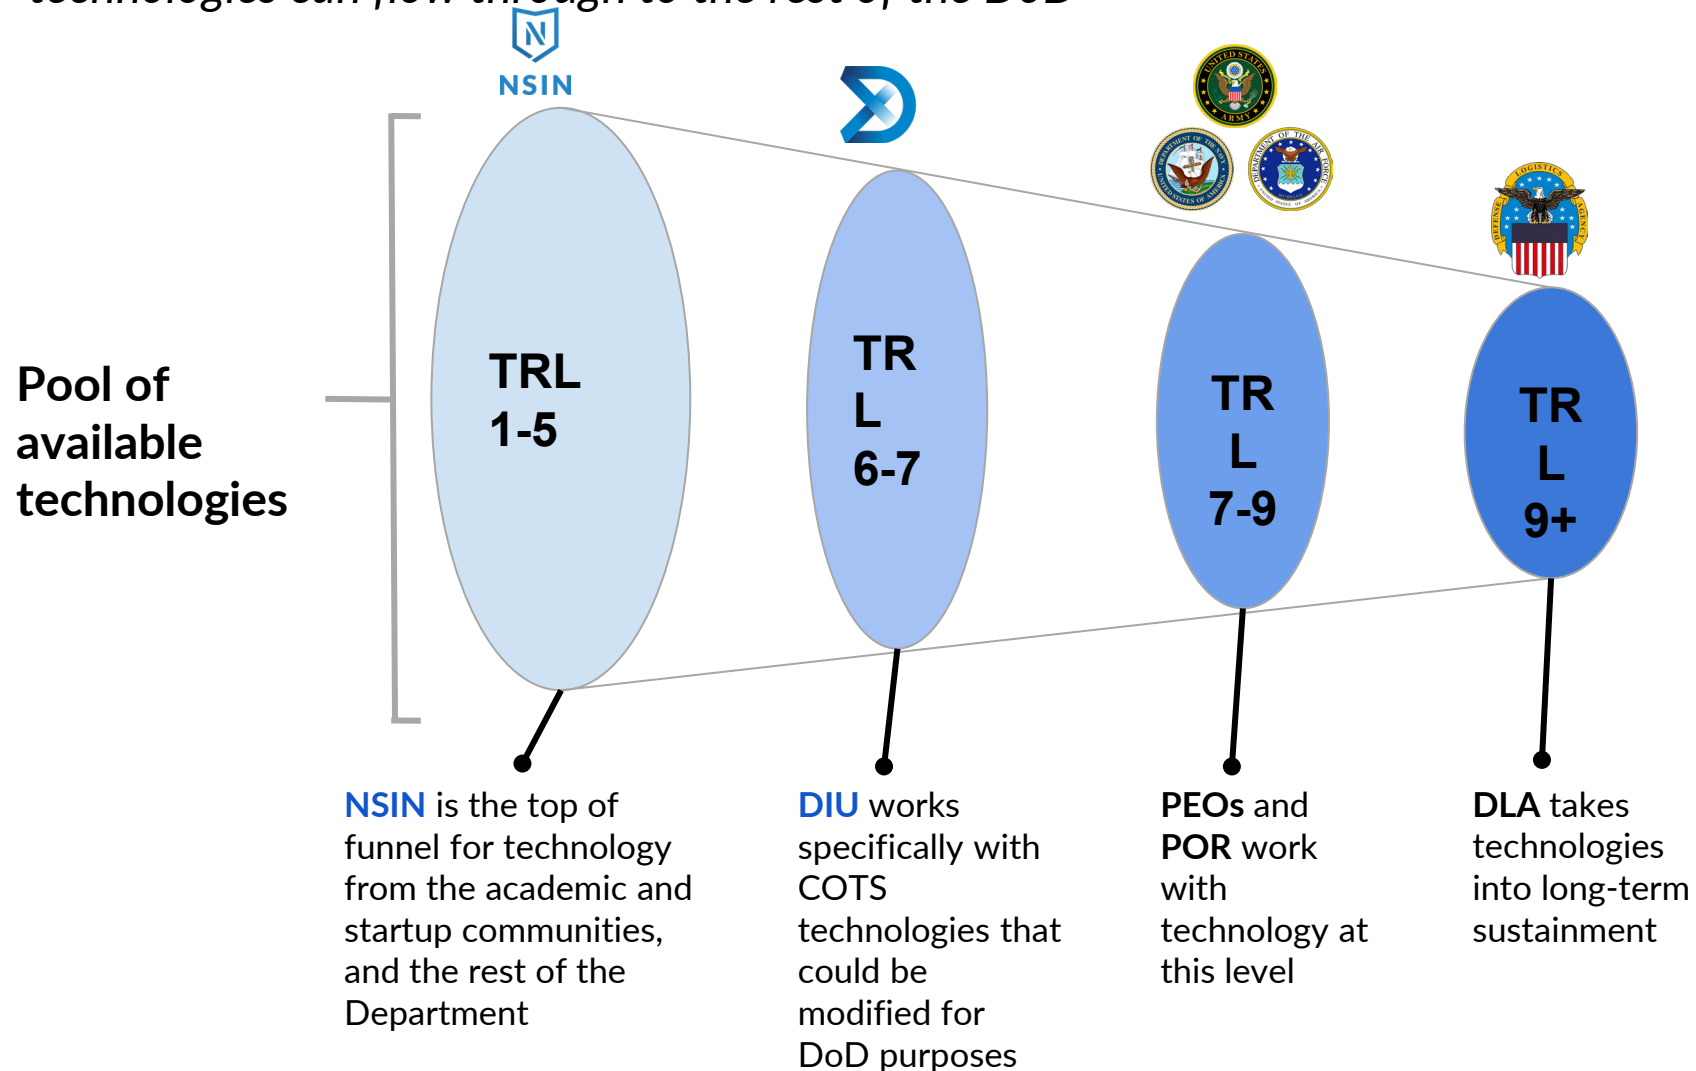

Where

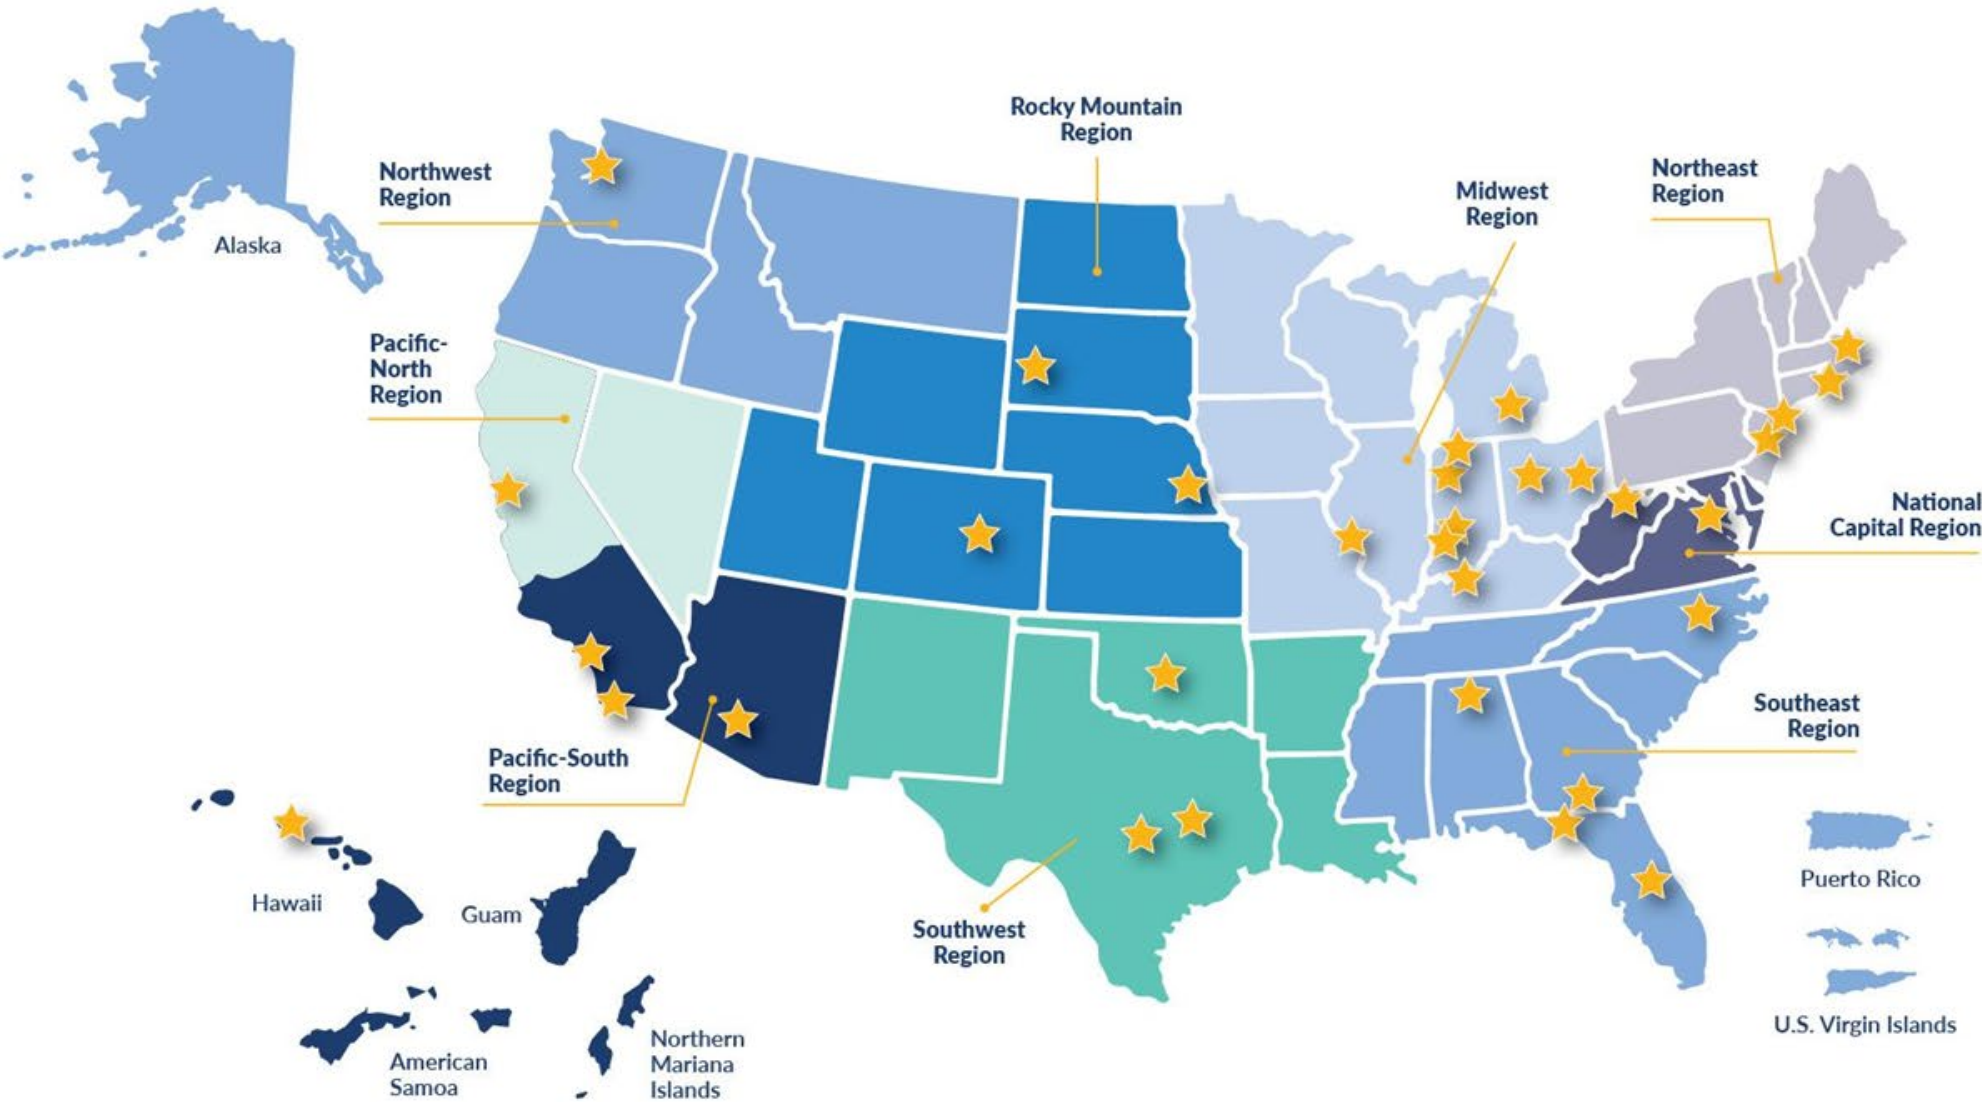

- › HQ in Arlington, VA
- › 37 regional positions across 26 states

NSIN is the Top of DoD's Technology Funnel

NSIN works with academia and startup communities to build the funnel from which future technologies can flow through to the rest of the DoD

University of Notre Dame

A New Model for National Security Innovation

NSIN delivers on its mission through three lines of effort.

1

Network Building

Innovation ambassadors engage academic and venture communities to build a network of DoD problem-solvers.

2

Programs

Talent and Venture programming activates the Network to develop innovative solutions.

3

Transition

Supports mission partners and program participants to navigate the valley of death.

NSIN

Programs of Record

Talent Portfolio

BOOTCAMP

Teaches service members how to use Human Centered Design to develop minimum viable product (MVP) solution concepts for problems that directly affect their command.

CAPSTONE

Pairs student teams with DoD to solve challenges as a part of an independent study or practicum course.

X-FORCE FELLOWSHIP

During the summer, pairs recent graduates and current students with a DoD organization to solve problems ranging in complexity and across disciplines.

Venture Portfolio

CHALLENGES

Bring collaborators from the defense, academic, and venture communities together to work on the most challenging technical problems in national security.

EMERGE

Connects DoD mission partners (e.g., operational units, program offices, etc.) with emerging technology teams and startups at our nation's top research universities.

PROPEL

Partners with commercial startup accelerators to lower barriers to entry for dual use ventures and lowers risk for DoD end users in discovering novel solutions.

NSIN

Venture

Driving access to early-stage ventures to address national security problems.

Challenges

NSIN Challenges bring collaborators from the defense, academic, and venture communities to work on the most challenging technical problems in national security.

- Solving complex problems requires a combination of diverse technologies and talent.
- Work on problem sets from the DoD that are sources of opportunity for non-traditional problem-solvers.
- Participate in innovation challenges that help DoD problem owners confront obstacles that affect their readiness and resilience.
- Collaborate and learn from other innovators tackling the DoD's problems.

In Action

Sponsor: Air Force Research Laboratory

Grand Challenges:

- *Metallic Scrap and Waste Powders* - Demonstrate production of powder from scrap materials and rejuvenation of used or out-of-spec titanium powder for additive manufacturing.
- *Quantum Networks* - Develop high-rate entangled-photon sources to enable global quantum networks, networked quantum sensors, and distributed quantum computing.
- *AI Planners for Optimization* - Identify and build a machine learning-artificial intelligence system that can efficiently help researchers find appropriate conditions for optimization and discovery of new synthetic compounds using multi-system approaches.
- *Quantum Information* - Extraction of images beyond the Rayleigh limit pitched high-resolution space imaging solutions.

Learn more about Challenges: nsin.mil/portfolios/venture

Propel

Supports the DoD's effort to maintain its competitive edge by collaborating with innovative and non-traditional partners and influencing the development of solutions delivered by early-stage ventures and accelerates their transition readiness.

- Three-to-four month accelerator program for the DoD and 10-12 dual-use ventures to work together to shape solutions that solve DoD customer problems.
- Includes targeted services and DoD-specific mentorship and education to prepare early-stage ventures for DoD adoption.
- Early-stage dual-use ventures are better prepared to successfully transition solutions to the DoD.
- Can lead to multiple adoption opportunities including SBIR Phase I, direct to Phase II, OTAs, BAAs, etc.

In Action

Sponsor: PEO Digital

Project: Human-Machine Teaming

Solution: A wearable device intended to assist Parkinson's patients and also serve defense needs:

- Pison contracted with several DoD organizations, securing more than \$7 million in research and development funding.
- Pison's first product that enables gesture control with autonomous systems and software, such as ATAK, is being sold to the DoD.

Learn more about Propel: nsin.mil/propel

Transition Cell

Offers post-NSIN programming support to alumni teams and companies.

- Our expertise and resources are available through one-on-one consultations, curated collection of resources, and customized support plans.
- Subject Matter Expertise:
 - Government Contracting
 - Private Investors and Capital Access
 - Planning Government as a Customer 101
 - Testing and Evaluation Resources
 - Market Analysis
 - Scaling Solution Adoption
- Our Network:
 - Private Investors
 - Small Businesses Resources
 - University Resources
 - Testing and Evaluation Resources
- Government Contracts Expertise:
 - SBIR/STTR
 - OTAs
 - Prize Authority
 - Other Non-FAR Options
 - Customer Memorandums of Agreement
 - Rapid Acquisition Authority

The Transition Cell is currently engaged with 30+ companies, supporting them with subject matter expertise to achieve DoD adoption through multiple contract strategies as well as navigating the process of raising private capital.

The Transition Cell is also building a network of 900+ investors and mentors to help further connect NSIN ventures within the DoD ecosystem and relevant startup ecosystems across the country.

\$2.9B

IN DoD FUNDING.

NSIN

Talent

Bringing in new talent to solve hard, national security challenges.

Capstone

Multidisciplinary student teams from university capstone courses bring unconventional thinking and novel approaches to your toughest problems.

- ▶ Students from diverse educational backgrounds work directly with military units where the solution is known, just need the expertise to build it out.
- ▶ Student teams configured to meet the unique skill sets of each project.
- ▶ Conducted both spring and fall semesters (some Capstones are two semesters long).
- ▶ Sponsor receives a minimum viable product (MVP).
- ▶ Sponsor receives significant new, creative analysis and thinking on the topic.

In Action

Sponsor: 305th Air Mobility Wing

Project: Develop a way to scan quickly for survivors after a crash that utilizes drone technology

Solution: An app where you can circle on a map where the drone needs to scan, the drone deploys and sends back 3D imagery of the crash site to the app.

Learn more about Capstone: nsin.mil/capstone

Foundry

Foundry is a five month cohort-based program that increases technology, transfer, and transition (T3) of U.S. Government inventions by matching technologies and inventors with entrepreneurs interested in starting a high-tech company.

- ▶ Program identifies, researches, and vets cutting-edge DoD technologies developed in government laboratories, Federally Funded Research and Development Centers (FFRDCs), and University Affiliated Research Centers (UARCs) and leverages them to solve real-world problems of DoD and commercial customers.
- ▶ Teams of entrepreneurs, working with DoD scientists and technologists, assess the market viability and the potential to commercialize DoD technologies.
- ▶ Entrepreneurs receive extensive training in Lean Startup principles and an opportunity to form a new venture around a cutting-edge technology.
- ▶ DoD researchers gain valuable insight into the market potential of their technologies and possible development pathways.

In Action

Lab of Origin: Army Research Lab
Project: Isotopic power source
Company: Direct Kinetic Solutions
Solution:

- DKS radioisotopic battery solution offers an ultra-light power solution that lasts for decades and goes far beyond current market offerings, reducing the number of rechargeable batteries on the field by half and disposable batteries by tens of thousands.
- \$3.4M in government funding to date.
 - \$150k in private capital raised to date.
 - Awarded three SBIR Phase I contracts and one SBIR Phase II contracts
 - Selected for the Capital Factory Ventures accelerator program.
 - Named one of Hello Tomorrow's Deep Tech Pioneers.

Learn more about Capstone: nsin.mil/foundry

X-Force Fellowship

Multidisciplinary student teams bring unconventional thinking and novel approaches to building solutions as an embedded fellow or “intern” in military commands.

- NSIN hires fellows every summer to work on your national security projects.
- Full-time, project-based summer internship.
- Virtual or in-person, embedded with military sponsor.
- Open to U.S. citizens at the undergraduate and graduate level.
- No cost to the sponsor.
- Sponsor receives a minimum viable product (MVP).
- Sponsor gains significant new, creative analysis and thinking.

In Action

Sponsor: Army Research Lab – West

Project: Quickly identifying armored fighting vehicles in an individualized, gamified approach to training.

Solution: Student team developed app that applies the training approach to armored vehicle identification.

Learn more about X-Force: nsin.mil/x-force

Tradewind Solutions Marketplace

June 2023

What is the Tradewind Solutions Marketplace?

- A centralized, video repository of AI/ML, digital and data analytics solutions
- An “on-ramp” for industry, academic partners, individuals, traditional & non-traditional vendors, and new entrants to the defense marketplace
- All videos accepted in the Marketplace are **readily-awardable** through a variety of contracting vehicles & pathways
- Solutions selected for the Marketplace satisfy competition requirements for:
 - Federal Acquisition Regulation (FAR)
 - Defense Federal Acquisition Regulation Supplement (DFARS)
 - Statutes, Policies, and guidance for the DoD’s Other Transaction Authorities (OTA)

Tradewind Solutions Marketplace Value Proposition

Benefits to CDAO and all of DoD

- Increased speed-to-contract
 - Improved ability to procure AI/AI-related capabilities for DoD (Combatant commands, all services, customers and end-users)
- Virtual, searchable database of AI/ML, digital, and data analytics solutions
- All solutions are readily-awardable
- Supports development of a commercial market for AI/ML, digital, and data analytics

Technology Focus Areas

The Marketplace is soliciting for capabilities in the following strategic focus areas:

- Improving situational awareness and decision-making
- Increasing safety of operating equipment
- Implementing predictive maintenance and supply
- Streamlining business processes
- Assuring Cybersecurity
- Developing a digital-age workforce
- Increasing autonomy and mobility of DoD systems
- Discovering Blue Sky Technology Applications
